Bio

Founded by Sam Smith, 35 Drive was born out of an idea - and like all good ideas, it turned into something beautiful.

Through a collaborative songwriting partnership, Sam and Anthony Enriquez (Shotgun Rider, Seven Miles South) gave life to emotive and powerful new music that is nothing short of brilliant in the debut EP "Sundown."

Once Vince DiGioia came into the picture, everything changed. With experience playing alongside some of Country music's heavy hitters - like Reckless Kelly, Josh Abbott Band, Roger Creager, and Radney Foster - the band took on a new life.

They're making their way through the Texas Country music scene. Check out their tour dates to find a show near you! You won't regret it.
